SonahaBikashSamaj

Bardiya

Message from Chairperson/Executive Head

It is my pleasure to say that SonahaBikashSamaj has been working as a implementing partner of Community Development Project financial and technical support by Good Neighbors International Nepal since 2016.

Currently we are working Madhuban municipality ward no. 5, 6,7,8,9, Rajapur municipality ward no. 1 and Geruwa Rural municipality ward no. 1,2,3,4 and 6 focused on sponsorship program. Through the Bardiya Community Development project we are centralizing sponsored children for quality education, infrastructure improvement of schools, income generation activities of cooperatives, quality access of health services and child rights and child protection with advocacy an against early child marriage issues. For these activities implementing we always concern with our project stakeholder especially local government, project management community, community development committee, FCHVs, mother groups, school management committee, head teachers, government line agencies, cooperatives members and teachers/parents association which became fruitful result in time.

I would like to special thanks to Good Neighbors International Nepal to provide us financial and technical support for development of Bardiya district as well as marginalized and poorest children through the sponsorship program. I would like to give big hands to our entire project team and stakeholder for completion all activities of 2019 with ensuring quality and transparent way in time.

At the end, I believe we will together in 2020 which is the phase-out period of Bardiya community development project where we will work self-motivated, strong team building with high expectation for better result that makes us for continue of further phase.

Regards

BalBahadurSonaha

1. Introduction

SonahaBikashSamaj (SBS) is a local NGO registered in District Administration office Bardiya and Social welfare Council and it is currently listing in Province no. 5 as per new federal structure of Nepal. SBS has been implementing different activities of GNI funded project from 2012-2015 for first phase. SBS has been implementing Activities under the Bardiya Community Development Project with the technical and financial support of Good Neighbors International (GNI-Nepal) from September 2016. SonahaBikashSamaj is working under the Bardiya Community Development Project 1 Rural Municipality and 2 municipalities of the Bardiya district named Geruwa Rural Municipality (previous Patabhar VDC, Gola VDC, Manau VDC) Madhuban Municipality (previous Sanoshree-taratal Municipality) and Rajapur Municipality respectively.

GNI initiated project in Bardiya District since 2010. Currently, the project has been implementing its activities above mentioned areas. Currently, GNI Bardiya has been supporting 1623 children through integrated program such as sponsorship service and child protection, education, health, WASH, income generation, Hope in school and MHM as major thematic areas whereas community partnership & network building, gender, advocacy and disaster risk reduction as cross cutting issue.

The majority of the inhabitants of this area are Dalits (as named untouchables, historically, politically suppressed communities, mainly away from state mechanism, means and opportunities, having poor human development index), Ex-Kamaiyas (ex-bonded labors, having poor human development Index) and Sonaha (Sonaha are one of the endangered ethnic groups having settlement in the bank of Karnali River). It has been implementing activities by mobilizing mother group, farmer group, child club and parents and effective coordination with the government and non-government agencies

Its aim to fulfill these Objectives:

- To provide educational support to school children and assist in building school infrastructure
- To provide general health check-up to children, parents and community people
- To improve the condition of sanitation and drinking water in the schools and communities
- To support families for their livelihood improvement
- To enhance the socio-economic condition of community people through local resources mobilization for income generation
- To provide skill enhancement training based on situation and demand of the beneficiaries
- To produce local-leaders having concept of sustainable community development

SonahaBikashSamaj is now directly working with; 27 Sponsored linked Schools with 1623 sponsored Children, 3 Resources Centers, 2 Municipality and 1 Rural Municipality, 5 Health post, 6 Community Development Committees, 1 Project Management Committee, 6 Cooperatives with 1842 members and local stakeholders.

Major Components of Community Development Project

1. Education
2. Livelihood Enhancement

3. Health and WASH
4. Sponsorship Service and Child Protection

2. Education

Education is one of the core components of Community Development Project (CDP) and it aims to improve children's access to education facilities and enhance capacity of community schools to deliver quality education. The education related activities of CDP mainly focuses on promoting equitable access and participation of children in education, improving learning outcome and efficiency of school and capacitating school governing bodies.

The following activities are conducted in year 2019 regards to education theme:

2.1 Promoting Equitable Access and Participation of Children in Education

School beautification

School beautification construction was completed on 14th March 2019 at EK-Priya secondary school Geruwa-2, Bardiya supported by Good Neighbors International and its implementing partner SonahaBikashSamaj which was started from January 2019. The main objective of this activity was to create quit fresh environment as well as clean and beauty school yard. More than 1200 students and 37 teachers are directly or indirectly benefited from that activity. For that activity school also had contributed more than 37% in total of cost. This activity was done by remaining budget of education in 2018.

National Level Education workshop

National level workshop of education thematic was conducted on 19 to 22 February 2019 at BhirkutiGodabari hotel organized by GNI-HO. The main objective of this workshop were to review and reflection of 2018, issues and challenges along with strategy plan sharing for 2019. On four days residential workshop, Mr. IndraSonaha- Social Mobilizer was participated on this workshop from SonahaBikashSamaj.

EMS Distribution

Every child has right to education. The children from remote, marginalized and underprivileged community do not get the opportunity to foster their potentialities because they do not have access to education. Therefore, Good Neighbors International is committed and works to provide such opportunity to the children of poor family. Educational Materials support for School Education is one of the major programs of Good Neighbors International. The children who hardly get chance to be enrolled in school because of lack of school uniform and stationary are targeted by this program. School education materials lessen the economic burden of parent who cannot afford it and also send their children school regularly. Students do their class work and homework regularly if they have educational materials with them so that it helps them to improve their studies. Under the Community Development Project Bardiya was completed EMS distribution to sponsored children on 7th September 2019. It was planned for 1319 sponsored children.

Out of them 1297 (98.33%) sponsored children were received EMS in this year. Remaining sponsored children are out of district and some are left the school.

Digital Materials Operation Training

On dated 17 to 21 July 2019, Digital materials operation training was conducted at Bijaya hotel and river side cottage. The main objective of this training was to improve quality education on public school through ICT and minimize the gap for using ICT equipment between city and rural areas schools. From nine schools 18 participants were participated on this training. The training was facilitated by Deepak Poudel from GNI HO

After SEE Support

Through Community Development Project Bardiya, SonahaBikashSamaj was planned to support after SEE sponsored children for 285 children. End of December 2019, only 270 sponsored children were supported out of 285. Remaining 15 sponsored children were out of district specially most of them are still aboard country. The main objective of this support was to support higher education and minimize higher study dropout.

ECED classroom Management

Under the SPROUT Project, Bardiya community Development project was supported ECED materials to basic school on dated 29 November 2019. The main objective of this support was to expand access to quality ECED services for children and better prepare them for the basic education. To run the ECED classes effectively with the initiation of parents and community as well as with the coordination of school for its sustainability was also other objective. Janta Basic School Sarkhol and Sharswoti basic school Jodhipur were supported ECED materials with furnishing. From this support 28 ECED child of Janta Basic School and 34 ECED child of Sarswoti basic school were directly benefited from the support

ICT Equipment Support

On dated 29 Nov 2019, SonahaBikashSamaj was supported ICT equipment to 6 schools under the SMART class room project in Bardiya CDP. The main objective of this support was to improve quality education; effective learning likewise spread social awareness through use of ICT in education. It was basic ICT equipment to promote smart class room. Laptop, Projector, Printer and sound system which are basic requirement of ICT were supported to schools. The budget was managed from ICT equipment support and remaining budget of EMS and salary of PC/SM. Under this activity these schools were supported:

- * Kalika Secondary school got Laptop-1, projector-1, printer-1 and sound system-1
- * Ekpriya Secondary school got Laptop-1, projector-2, printer-1 and sound system-1
- * Janta Secondary school got Laptop-1, projector-1, printer-1 and sound system-1.
- * Nepal Rastriya basic school Gidarpur got Laptop-1, projector-1, printer-1 and sound system-1

* Bhirkuti Secondary school got Laptop-1, Projector-1 and sound system-1

* Nepal Rastriya Ganesh Secondary got Desktop-4, Laptop-1, Printer-1, Projector-1 and sound system

SMART Class room (Child friendly class room management)

On dated 29 Nov 2019, SonahaBikashSamajBardiya was supported ICT equipment's to 3 schools under the child friendly class room management in Bardiya CDP. The main objective of this support was to improve quality education; effective learning likewise spread social awareness through use of ICT in education. It was basic ICT equipment to promote smart class room. Laptop, Projector, Printer and sound system which are basic requirements of ICT were supported to schools. Under this activity these schools were supported:

* Sivedurga received laptop-1, projector-1, printer-1 and sound system-1

* Nepal Rastriya Secondary school Purnapur was received laptop-1, projector-1 and sound system-1

* Sharswoti Basic School was received laptop-1, printer-1, projector-1 and sound system-1

ECED Building Construction

Lack of proper and sufficient space for teaching and learning is one of the major challenges to run ECED classes. To provide child friendly learning space and ensure active engagement of ECED children in learning activities, CDP supported the construction of 1 ECED buildings at Sharswoti Basic School Jodhipur, Bardiya. With the availability of adequate and safe space, children now actively participate in the learning process. This has directly benefited 34 ECED students. (Include photograph of the building).

. CASE STORY

Student's retention after physical environment improvement in school

Sivdurga Secondary school situated at Madhuban Municipality ward no.8, Bardiya established in 2025 B.S., is one of the project residing schools of Good Neighbors International Nepal. Currently it has been running from grade 1-10. There are 358 students including 190 girls and 168 boys. The school is doing its effort best to ensure quality education. The school has started operation of digital materials in teaching methodology since this year.

Though the school was established in 2025 B.S., the school had no sufficient school infrastructures, teaching learning materials like computer lab, science lab, library books etc. Likewise, the school has focused on regular classes. There were least activities conducted for children's participation and exploring talents. Due to this the school had least number of children and children used to left this school within one or two years. The record shows that the enrollment and exam attendance was not satisfactory; it was about 5-8 % children's were not attending examination and left to school during 072 -075 B likewise enrollment was 347 in 2073, 345 in 2074 and 318 in 2075 which shows the decreasing the children number.

Being such condition of the school, the school team knocked the doors of many organizations, Madhuban Municipality and Education department of Municipality Office likewise good Neighbors international Nepal. After the school's commitment and effort to improve quality of education, they have constructed the building with 8 rooms through support of LGU and organization. GNI has also supported 8 sets of assembled computers where class room management supported by ward office as well as supported Library operation, school fencing, Drinking water system, MHM corner established, ICT equipment and conducted child club strengthening and mobilization program etc.

Now school have good infrastructure, teaching learning material as well. So, Shivadurga BS upgraded the class from grade 9 to 10 and appropriate room for operation of class. The school has focused in practical lessons of computer subject rather than theoretical one. Around 125 children take daily practical classes daily turn by turn. The school has also well managed Toilet, School environment, drinking water system, library and additional computer teacher. The school's administration is also improved. The total children number of school is 358. Mr. Haribahadur Basnet says, after improvement on infrastructure and teaching learning material education environment has been drastically changed in shivadurga. The teachers and students are activity participating teaching learning activities. Mr. haribasnet added, school left of student is like a zero rather student of other schools wants to join in shivdurga which is our great achievement.

The school family has a plan to add the number of computer sets and establish E-library in near future. It has already managed library. The school also has a plan to establish a well-equipped science lab. According to head teacher, they are planning to manage special computer classes for other adults of the community during the period of long vacation like Dashain and summer.

2.2 Improving Internal Efficiency of School and Learning Outcome

Support Child Club Members to organize ECA

Hope letter project POA 2019, Sonahabikash Samaj was supported to conduct child lead ECA in Bhirkuti Secondary school madhuban Bardiya. The main objective of this event was to flourish inner talent of the

students and ensure the participation of the students in extracurricular activities. This activity was conducted through child club.

“Zero Home Delivery after birthing center”

Daulatpur Health Post situated in Rajapur-1, Bardiya was established in 2050 B. S. It has been providing health services to the patients of Rjapur Municipality. 1 along with some nearby localities. The current staff structure of the health post includes 1 Sr. AHW, 1 AHW, 2HA and 2 ANM. The health post is providing preventative, curative and delivery facilities at present. It has been improving its building structured.

Considering the health consciousness of pregnant women and aiming to providing safe delivery services, Birthing center was proceed to establishment in 2070 BS. Ward chairperson, Mr. Khusiramtharu, says that but the birthing center could not be in operation due to lack of equipment and health workforce. They had to refer miner delivery cases to Rajapur or Tikapur or district hospital. The family had to bear additional expenses in transportation, lodging and

food in district health quarter. It was also practiced of home delivery and in some cases delivery was occurred on the way to hospital.

GNI Bardiya CDP supported birthing center building and delivery bed, waiting bed, Suction machine, auto clave, BP set, suture set, weighting machine, dental set etc in 2016 as per the request of the health post especially aiming for strengthening the effectiveness of safe motherhood and delivery services. Institutional delivery awareness and Reproductive Health training was provided to 17 FCHVs of the same ward in order to enhance existing capabilities of FCHVs so that they can provide good counseling to community people especially pregnant mothers, for having regular check up during pregnancy and safe delivery at birthing center.

According to Mr. Khusiramchaudhary, ward chairperson, the birthing center could not run till 2017 due to lack of nursing staff. After struggle of ward office the birthing center was finally in operation in initial of 2018 with health force. After that the cases of delivery at birthing center were increased. According to Ward chairperson, there is Zero home delivery in Rajapur-1. The health post record shows that 176 women have taken safe delivery service during the period of 2018-2019. Expect 2-3 critical case, No delivery case has been referred to district hospital or other higher center during the period. Ms. Goma Acharya, ANM added, "The support has assisted us in providing effective delivery service. Now, some women from ward no-2&3 come for delivery service in this birthing center. There is reduction in the unnecessary expenses like transportation, lodging, food etc. while going out of this center for delivery purpose".

Health post family and delivery service holders are thankful towards the support of Good Neighbors International, Nepal. It has been constructing the adding 1 floor through the support of ward for expansion of its services. They are planning for lab establishment so that they could provide all sorts of nominal services from the center.

Social Audit

As per POA 2019, SonahaBikashSamaj was completed all given task in time schedule end of December 2019. So, Bardiya CDP was planned to share all thematic activities plan v/s achievement and expenditure to project stakeholder who are directly involved in Bardiya CDP on dated 31st December 2019. The main objective of social audit was to ensure transparency of the project and collect suggestion and feedback for the project next upcoming plan.

Some suggestion and feedback were collected from stakeholder during the social audit as given below

- All CDP project's activities are effectiveness and its need to continue.

- Some activity like MHM, Hope letter, ECED building, EMS support are model of the project which can be being as for model of government services.
- Basic utility support to ORC became easy for general health checkup of community people who are away from health post.
- To increase business motivation training to cooperative all members.
- During the general health checkup of children it will be better to send limit number of students rather than huge number on health post.
- It will be better to include shoes and sweater on EMS support.
- For quality education, it will be better to provide tuition/coaching to sponsored children.
- On EMS support, copies size need to be increased which will be very helpful to carry and do annual work of books.
- For community enterprises Asalkirshi cooperative was demanded cold storage for milk.
- During the activity conduction in school or other places it will be better to communicate through the letter if possible.
- Activity calendar should be necessary to conduct the activities in community level.

7. Major Out puts of 2019

8. Best Practices

Organizational:

Follow the chain of command under the Bardiya CDP.

New project of USAID/PAANI is lunched in SBS.

New executive board is selected through annual assembly.

Coordination:

MOU with LGU for implementing POA plan (**Education, DRR-Plan/CP trainings/AWASAR project/**

Inform through official letter to LGU each and every activities before conduct

Before conduct activities meeting were conducted with Local Government.

Coordination with other stakeholder like private sector, institution and line agencies.

Implementing:

Local government try to reflect design of ECED and hope building.

Through science lab and computer lab support child enrollment of school is increased.

Digital materials teaching methodology is started using ICT equipment.

All infra activities have to 20 to 50 percentage contribution by community (School/Cooperative)

Joint monitoring with Local government and collected feedback for upcoming plan.

One basic school Sivadurga is now started secondary level classes.

Event wise social audit is conducted for ensure transparency.

Annual social audit is organized with related stakeholder.

Teachers meeting with local government are conducted for quality education.

8. Lesson Learned

Involvement of community people and local government in construction committee is more transparency and sustainability for CDP Project.

Promoting one cooperative one business is more sustainable rather than other supportive business.

Using digital materials and ICT equipment in government school helps to increase quality education with reduce school dropout of students.

Awareness through MHM Project to community people have to change their behaviour towards menstruation

9. Way Forwards

Effectiveness of MHM and Hope letter project, need to be continue under the Bardiya CDP.

Bardiya community development project is one of the model base project for Bardiya district so, it will be better to continue for whole approach developing of community people.

Bardiya district one of the vulnerable from child marriage and disaster so it will be better if we continue or additional program for addressing these issues.
